## “Drink Concept”

NoLow Socialize Vibes

No Low drinks are conquering the market and challenging alcoholic beverage choices. Forecast from the global trend, according to surveys and experience, 80% of people would rather have ‘NoLow’ alternatives on daily basis (afternoons, evenings, and early night-outs).

Those looking for enjoyment in a hangout spot, but consciously avoiding alcohol, can find solutions to fit their lifestyle in ‘NoLow drinks’ – beverages with either “no” or “low” alcohol. Meanwhile, there’s much more to choose from beyond alcohol-free beer or champagne. The new generation of ‘NoLow’ beverages not only includes alcohol-free cocktails, but an ever-growing number of spirits, beers, wines, natural wines alternatives with no and low alcohol.

At the beginning of 2020, the COVID-19 pandemic held the entire world in its grip. Many people focused on mental and physical health, in other word being more **“mindful in their lifestyle,”** as a way to combat the virus. A healthier lifestyle became indispensable – in keeping with the longer-term global trend toward prioritizing health.

There is an ever increasing pressure of succeeding professionally and personally, with no sign of average working hours reducing (so a hangover just isn’t an option). Many Gen Z’s will prioritise career goals as it is perceived to be much harder in modern society to achieve what they want, hence reduced alcohol intake.

It actually makes sense that people are now choosing a spot to hangout and socialize with the vibes of being sober or just a little tipsy to enjoy the vibes and conscious conversations together. Here at MINGLE we provide those needs with munchies, drinks, and good vibes. There are people who need safer spots to enjoy themselves and returning home safely. More and more positive experiences are being consumed by the sophisticated creativities of non-alcoholic and low alcohol content drinks. Increasing numbers of consumers are exploring the **“flavor journey”** in different places.

MINGLE have specifically selected the foods and drinks to match your vibes because we believe that you #BYOV (Bring Your Own Vibes) to the spot. This is the reason we prioritize delicately to create a space for you here at MINGLE.
